24HCOMPETITION

FRAMEWORK

In a world that is undergoing big changes imposed by the unknown, we are forced to believe what we don't see. Leaving our comfort zone forces us to rethink what we once considered right and which, after all, can be done in many other ways.

We all have to hope that these uncertain times pass and that after all one thing we all have in common, we are all human beings regardless of color, race, or religion.

hope

Hope for something represents a window of positive energy that motivates and encourages us to continue. Based on this belief, we advance and cross obstacles, overcome ourselves, become doers of something, and more human. Hope humanizes us.

In an increasingly competitive and capitalist world, the most fundamental values of life tend to lag, becoming more robots than humans, and when we realize this is when we have to stop and think.

Is this the world we want?

PROGRAM

Theme: Spiritual Center

Objective: Imagine a space where races and religions have no differences, and everyone respects each other and lives together in peace. Ultimately this was how it should be; however we are still far from it. In this challenge, we intend to develop an idea of a Spiritual Center shared by religions and races, where everyone can meet with their Gods and pray.

-Square: This square intends to be an open space for the spirituality, where each one can pray to your Goods or believes individuality. It has to be capacity for about 300 000 persons.

-Buiding: This building has to be the capacity of 10 000 persons on the inside. It serves to pray on silence or for religious events. It has to have support rooms for the religious chefs and seminars rooms.

-Areas: There are no specific areas.

-Location: Not defined, you should propose one specific site for this program and justify your choice according to the theme.

-You can add program that you consider relevant.
